

BACKGROUND & STENCILING

This layout features Stencil #20 Full Sunburst, used in a creative landscape orientation across the top half of the page. Josefine blended a vibrant yellow ink through the stencil, then outlined the rays with a light grey pen to add subtle definition. To give even more texture and dimension, she stitched along the centre of each ray with coordinating thread. The bottom half of the layout has a playful, mixed-media feel, created by smooshing blue and yellow inks for a soft, blended background.
